

# Manheim's Branded Vehicle Policy | 2017

---

Effective June 5th, all Manheim locations and sales channels will require all "sellers" use the red light (AS-IS) light in addition to the actual announcement of the permanent brand that follows the vehicle.

**This is a Manheim policy outside of the recommended NAAA policy.**

Brands include any/all:

- Bonded, Insurance and/or Salvage Titles (including history)
- Total loss by insurance records
- Flood damage discovered by Auction Inspection
- Flood damage history (discovered by DMV and/or insurance company records)

These vehicles are ineligible for any PSI or Limited Powertrain Inspections.

If a transaction occurs where a branded vehicle was sold under any light other than the red light (AS-IS), the sale will be unwound back to the seller through the normal arbitration process. Any law will supersede this policy.
